

Oil Equipment Manufacturing LLC—Growth Through Innovation.

Since acquiring Oil Equipment Manufacturing in February 2002, the new owners have relocated OEM's manufacturing and distribution operations to their 70,000sf facility in Ansonia, Connecticut and renewed the Company's commitment to growth and innovation. For over 50 years, OEM has provided the broadest line of quality tank related products, such as KING® Gauges and Alarms, Vent Caps, Fill Boxes, Duplex Bushings and other items. In addition, the Company has introduced new products including SpeedFiLL™ line of fill pipe nozzle connectors, The OEM Rocket™ Ultrasonic Wireless Gauge and OEM's latest development – the VisiTank™ Remote Tank Monitoring System.

As a company, OEM has addressed the needs of the energy industry by creating innovative solutions to real problems. This commitment to service has kept OEM in touch with our customers and ahead of the competition.

OEM has a long standing reputation for exceptional service and value to its wholesale customers as well as to fuel oil dealers and HVAC contractors. The Company's President, Einar P. Gudjohnsen is confident that the team spirit of the OEM's staff as well as their responsiveness and attention to detail will continue to earn loyalty from customers throughout the US and Canada.
